## PROJECTS

---

- **Personal Website**  
My personal website is created by me which tells about myself.  
Link:- <https://karangoyal.cc>
- **Weather App**  
It is an app that gives you access to the weather forecast for any city in the world, in a really easy and quick way. Once you've found a specific city, this tool will give you the weather forecast: temperature, humidity and rain probabilities, among other things.

- **Covid 19 Statical Analysis**  
The COVID-19 outbreak is an unprecedented global public health challenge. In order for people to respond to it effectively, I made an app in which there is live data of cases, deaths and recovery country by country and for better understanding i used google charts. I also added live news about this pandemic on this page.
